

Allies Stretch Battle Line Into Belgium

UNCONFIRMED REPORT SAYS CITY HAS FALLEN

In Desperate Attempt to Reach Antwerp

Plucky Antwerp's Fate Written Red on Sky; King Albert Wounded

Two of Inner Forts Have Been Silenced by Terrific Fire of Germans' Big Guns—Reported That Dykes Have Been Opened—Terrified People in Full Flight—Stubborn Fighting Still Proceeding, Although It Is Reported That Every Sign Indicates City Is Falling.

London, October 9.—(8:50 p. m.)—A wireless message from Berlin says that it is reported there that King Albert of Belgium has been slightly wounded.

London, October 10.—(2:13 a. m.)—The Morning Post says that it has been informed by a good authority that Antwerp has fallen.

The official press bureau says it is unable to confirm the foregoing.

Count De Lalaing, Belgian minister to Great Britain, says he has received no confirmation of the report.

"Stubborn fighting is proceeding before the Antwerp fortifications," says The Daily Mail's Ostend correspondent, telegraphing Friday.

"Four assaults have been repulsed at No. 4 fort, at Vieux Dieu. The bombardment of the town appears to be diminishing somewhat in intensity."

1,000 GERMANS TAKEN IN BELGIAN SORTIE.

"According to the latest advices the Belgians made a successful sortie from Antwerp which resulted in the capture of 2,000 Germans and forced the enemy to recross the river Nethe, abandoning their guns."

"Every sign indicates that Antwerp is falling," says The Daily Chronicle's Antwerp correspondent in a dispatch dated Thursday. "It is possible the town will be surrendered."

The main streets are deserted, but there are 20,000 panicky people on the quays and around the railroad station waiting to leave.

"The town is in flames throughout the southern section. No attempt is being made to quench them."

The Chronicle's Rosendael, Holland, correspondent, under date of Friday, says the situation in Antwerp is critical and that the town virtually is deserted except for the Belgian troops.

"Every house here," the correspondent continues, "is packed to the roof with refugees, and other refugees are camping around the railroad stations. Antwerp's civil guard was disbanded Wednesday."

The Daily Telegraph's Rotterdam correspondent, telegraphing Friday, says:

"A more hopeful view prevails here regarding Antwerp. Refugees from that city declare that not a single German soldier yet has entered Antwerp."

GERMANS ARE USING 800 BIG SIEGE GUNS.

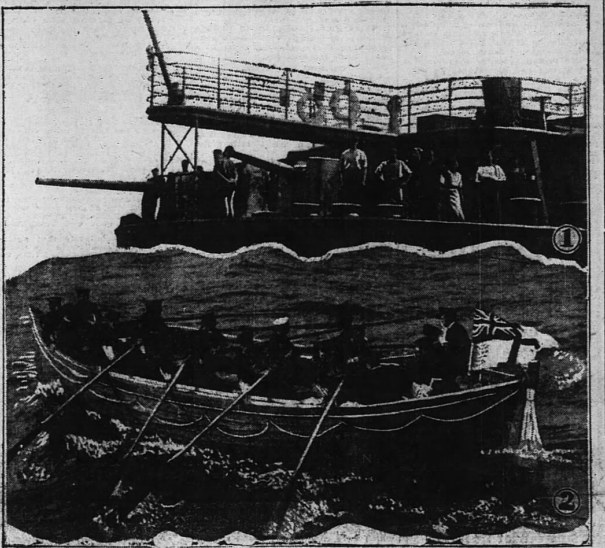

The places which thus far have suffered the most severely in the bombardment of Antwerp are the Southern station, the Palace of Justice, the Avenue de l'Industrie and the quarters in these vicinities. This statement is made in a press message from Ostend.

"Thousands of refugees are arriving here and the steamers for England are packed," says Reuter's Ostend correspondent.

"The sleep operations against Antwerp the Germans are using no less than 200 guns of 11, 12 and 16-inch caliber, some of them having a range of over eight miles."

The bombardment of Antwerp yesterday began at half-past 9 o'clock at night, and stopped at 10, only to be

BRITISH WARSHIP STOPPING SHIPS OFF NEW YORK HARBOR

1. CARONIA OFF NEW YORK HARBOR. 2. SAILORS GOING TO BOARD A STEAMER.

Shipping men are not taking kindly to the activities of the former Cunard liner Caronia, which has been lying outside Sandy Hook for more than two weeks, carrying out what shippers term a "siege of New York." Her officers have been boarding vessels and ordering going liners despite the fact that these were under neutral flags, coming from or going to neutral ports without contraband of war. The Englishman simply said they were searching for Germans among the passengers or crews. The delays occasioned by these hold-ups have not only inconvenienced travelers, but have cost the steamship owners a large amount, the latter assert. No preference has been shown in the selection of vessels to be boarded. In fact, most of those stopped have been British ships. If an approaching vessel has carried wireless she has been ordered by wireless to stop. If not, she has been signaled to do so. If the command has not been obeyed instantly a blank charge has been fired as a warning. As far as is known, that has been the case. When a vessel stops a cutter is put aboard from the Caronia, with a British flag in its stern and its crew wearing life preservers. British naval officers are then rowed to the vessel that is to be searched. The captain is ordered to show his papers, the passengers are looked over, and the crew is lined up for inspection; then the ship is searched for contraband.

WAR TO BREAK DOWN BARRIERS BEFORE CHRISTIANITY'S MARCH, SAYS COMMITTEE OF DISCIPLES

Pleas for Unity of Action by Churches of America Made by A. E. Cory and Prof. Shailer Mathews.

SAYS GREAT REFORMS WILL FOLLOW THE WAR

No Action Yet on Question of Abolishing General Convention—Spirited Debate Expected Saturday.

Outlining the tremendous problems of the foreign mission field, and setting forth the urgency of the church coping with the sociological problems of the world today, forcible appeals for Christian unity were made before the convention of the Disciples of Christ Friday afternoon by A. E. Cory, head of the Men and Millions Movement, and by Professor Shailer Mathews, president of the Federal Council of the Churches of Christ in America.

Mr. Cory, who has served as a missionary in China, Russia and many other lands, told of the progress of the foreign mission work, particularly in Russia, and outlined the need of the churches of all denominations combining their forces in order to spread the gospel to the greatest advantage in foreign fields.

Great Reforms to Follow. "The work may be retarded temporarily by the war that has broken out," said Mr. Cory, "but undoubtedly great reforms will follow the close of the war. It was so after the Crimean and Japanese wars—it will certainly be so after the present war."

Interesting light was thrown on the

same night the two corporals and the sergeant were captured by the German quick-firing and put to flight two companies of German infantry is related in a letter sent home by the captain of a company of infantry which is fighting on the Aisne.

The three Frenchmen sprang into the trenches and turned the guns on the German trenches. Most of the German soldiers were away to get their dinners and the officers were some distance back of the guns.

Belgium then will become the base of operations against Great Britain, the newspapers say. They say that Admiral Von Tirpitz, minister of the navy, who is a general belligerent with Emperor William, has announced that he will go aboard the flagships of the German fleet and direct the operations of the navy.

FRENCH TORPEDO BOATS COLLIDE AND GO UNDER

London, October 10.—(1:50 a. m.)—A Reuter dispatch from Toulon says that two French torpedo boats, the 215 and the 217, collided Friday morning off the Isles of Porquerolles in the Mediterranean, and sank. The crews were saved, but wreckage of the ships will be impossible.

POSTOFFICE MAY USE COTTON TWINE IN PLACE OF UTE

Southern Manufacturers Are Instructed to Submit Bids to Department in Washington.

The first official action taken by Washington to aid the cotton states in their present financial crisis, due to the curtailing of the cotton market on account of the European war, was announced Friday in a letter from the purchasing agent, J. A. Edgerton, of the postoffice department, to Postmaster Bolling H. Jones, of the Atlanta postoffice.

The letter notified Mr. Jones to instruct southern manufacturers of cotton twine that bids would be received from them at Washington. At present jute twine is used.

Approximately 150,000 pounds of cotton twine will be needed at Washington, if cotton bids are accepted, and this means that from 1,500 to 2,000 bales of cotton will be taken off the market, as the southern cotton twine manufacturers will require that amount of cotton to furnish the amount of twine needed by the postoffice department.

Bids will be received at Washington not later than October 21, and due to the shortage of time manufacturers in the southern states, if they wish to supply the demand of cotton twine of the postoffice department, must get busy.

The decision of the postoffice department to reopen bids on cotton twine, instead of using jute, follows an effort made by the Atlanta Chamber of Commerce to get Washington to use cotton twine, and help out that much the cotton situation.

Postmaster Jones desires that southern manufacturers, who can furnish twine immediately, submit bids. Full

Cavalry Engagements Being Fiercely Waged Within Sight of Sea

Aerial Raid on Dusseldorf by British Airmen Confirmed by Berlin Announcement—Russian Army Has Again Invaded East Prussia as Far as Lyck—Montenegrin Troops Near Sarajevo—Suggestion of Peace on "Drawn War" Basis Finds No Favor With the British Press.

Paris, October 9.—(11:09 p. m.)—The following official communication was issued here tonight:

"There is nothing new to report, except that there has been a lively engagement in the region of Roze, where, in the last two days, we have captured 1,600 prisoners."

Paris, October 9.—(3:06 p. m.)—The following official announcement was given out in Paris this afternoon:

"The general situation has undergone no change."

"On our left wing the two opposing bodies of cavalry are still operating north of Lille and La Bassée, and the battle continues along the line marked by the regions of Lens, Arras, Bray-Somme, Chaumes, Roze and Lagny."

"On the center of the Oise, and on the Meuse, only actions of minor importance have been reported."

"On our right in the Woerthe district there has been an artillery contest along the entire front."

"In Lorraine, in the Vosges and in Alsace there has been no change."

"In Bosnia Montenegrin troops have continued their advance in the direction of Sarajevo, as far as the fortified line which protects the city at a distance from it of eight kilometers."

ZEPPELIN AIRSHIP BROUGHT TO GROUND BY ANTWERP SHELLS

London, October 9.—(3:50 p. m.)—The Evening Star's Antwerp correspondent says that eye witnesses of the Zeppelin flights over Antwerp insist that they saw one craft, hit by shells from the forts, fall to the earth.

During the bombardment of Antwerp Thursday night it is estimated that shells fell at the rate of twenty a minute. Many civilians were killed.

In addition to the law courts building and the museum which were damaged by shells, fires broke out at many points in the city.

Weather Prophecy PARTLY CLOUDED.

Georgia—Partly cloudy Saturday. Showers at night or Sunday.

BOTH LINES EXTEND TO THE NORTH SEA.

London, October 9.—(10:30 p. m.)—Belgium once again is the center of military interest, for not only is her army battling for its life behind the fortresses at Antwerp, but the long battle line in France has struggled northward until it has crossed her frontier at Arras, Arras, Bray-Somme, Chaumes, Roze and Lagny.

According to a German report received by wireless from Berlin this evening, railway and telegraphic communication with Antwerp is interrupted. It was reported also that the king of the Belgians had been slightly wounded.

The severing of communication had been expected, for the Germans had been directing their attacks at points of ingress to and egress from the city and at the same time dropping shells into the town itself. A portion of the town is reported to have been destroyed. The 42-centimeter guns made short work of the great Brailmont forts and lesser ones are now engaged in destroying the city, which, under the provisions of The Hague convention, was given due notice before the bombardment commenced.

The military fortunes of General von Kluck and his one-armed adversary, commanding the allies' cavalry, rapidly are being made and marred within sight of the North sea, which sets a limit to the outflanking movements, the accomplishment of which for so long has been the supreme goal of the rival generals.

The storm center gradually has extended northward. The battle of the Aisne already has been merged into the battle of the Somme and the battle of the Ypres, and if the long left flank of the allies continues to stretch out in this present direction the final of the titanic struggle may be fought out on the banks of the Scheldt, and may decide the fate of the beleaguered fortress of Antwerp, now prey to German howitzers and aircraft.

Whether or not the garrison of Antwerp will stand the ground until the fate of the attempt to relieve the fortress is decided it is impossible to foretell, as the situation is liable to

HENRY MEASURE RAPPED BY M'ADDOO

Plan for Direct Federal Aid to the Cotton Growers Not Practicable, He Says—Brokers' Loan Discussed.

Washington, October 9.—The plan for direct federal aid to cotton growers to the extent of \$400,000,000 was the subject of sharp criticism in a letter to Representative Henry of Texas, dated public tonight, by Secretary McAdoo.

The letter is in reply to recent statements to the house by Mr. Henry. Mr. McAdoo announces that the proposal to sell \$250,000,000 of Panama canal bonds to bolster the cotton crop is not practicable and generally objects to all the features of the Henry plan.

He calls attention to the fact that those who deal in tobacco, naval stores, copper, silver and other commodities have sought government aid.

"If we regard every suffering interest except cotton," he said, "and make it the sole beneficiary of governmental favor, what becomes of the democratic principle of 'equal rights' all special privileges to none?"

"If we enter upon the course you suggest we must help every distressed industry impartially. To do that would necessitate the issue of many more than \$400,000,000 in bonds and sea bonds and dangerously involve the credit of the government. It would

SALARY IS TOO HIGH, SAYS MAYOR WOODWARD

He Will Not Approve Position
for Captain Clayton in
Present Form.

Mayor Woodward said Friday that he will not approve the proposed charter amendment creating the office of consulting engineer for the city at a salary of \$2,000 per annum, unless friends of the measure make several drastic changes.

One change which the mayor will insist on being made will put the salary from \$2,000 to \$1,500 per annum, and he will also urge that the term of the office be made two years instead of four. If these changes are

made, Mayor Woodward will not only approve the ordinance, but he will also allow the authors of the measure to insert a clause in the law to provide for extra compensation for the incumbent whenever he is called upon by the city to perform some extraordinary duty.

The ordinance is now pending before the aldermanic board. Alderman James R. Nutting, who introduced the measure, caused action on the part of the aldermanic board to be postponed, following a conference he held with Mayor Woodward. Alderman Nutting will acquaint friends of his measure with the wishes of Mayor Woodward, and if an agreement can be reached and the measure redrafted to suit the mayor it will be re-introduced in council and referred back to the aldermanic board.

Alderman Nutting's ordinance was drafted with a view of providing a place for Captain R. M. Clayton, who retires at the end of the present year as chief of the construction department. Members of council are agreed that something should be done to retain Captain Clayton as an officer of

the city in order that the city might continue to get the benefit of his knowledge and advice. Mayor Woodward is also in favor of placing Captain Clayton in a place after the expiration of his term, but the mayor says that he considers it a reckless expenditure of money to provide a salary of \$2,000 per annum.

"I don't like to be placed in the position of approving a measure which creates this new office with a salary of \$2,000 per annum for our engineers to \$7,500 per annum," said the mayor.

"I don't like to be placed in the position of approving a measure which creates this new office with a salary of \$2,000 per annum for our engineers to \$7,500 per annum," said the mayor.

Dedication Services At Inman Park Church On Sunday Afternoon

Dedication services of the Inman Park Presbyterian church will be held Sunday afternoon at 2:30 o'clock. The members of the church have prepared an elaborate program for the occasion, and have invited Rev. J. B. Green, of

Greenwood, S. C., to deliver the sermon. The services will be presided over by Rev. J. A. Little, D. D., pastor of the Westminster Presbyterian church. The invocation will be read by Rev. Carl Barth, pastor of the Kirkwood Presbyterian church, and Rev. J. M. McArthur, of the Druid Hills Presbyterian church, will read the Scriptures. Prayer will be offered by Rev. J. B. Green, pastor of the First Presbyterian church, and a history of the church will be given by Rev. J. B. Green. Rev. J. B. Green, pastor of the Inman Park Presbyterian church, will offer dedication prayers, and benediction will

be asked by Rev. Arnold Hall, pastor of the Gordon Street Presbyterian church. The church had its start in 1896 with fifty members, and its growth has been pronounced. It now has 230 members and a Sunday school class of 80 and a cradle roll and home department numbering 125 more. The present church building was erected eight years ago, and the debt has been discharged and now the building is the property of the congregation. The last conference was held in April, and the congregation is now ready to dedicate the church to the service of the Master.

DR. C. E. HILL TO ADDRESS CENTRAL SUNDAY SCHOOL

The Sunday school of the Central Congregational church, which is steadily growing, now begins at 9:30 o'clock each Sunday. The preacher at the 11 o'clock service will be Rev. Dr. Claude E. Hill, formerly of Mobile, Ala., now national superintendent and preacher for the Endeavor society of the Christian church. He is known as one of the able and eloquent preachers of the denomination of the Disciples.

It is a Mark of Distinction

to be known as a subscriber, a reader, or a patron of THE LITERARY DIGEST. Such intimacy stamps a man as above the average mentally—puts him in the class with men and women who are doing the big things in life.

It is read by more than a million people—Business Men, Physicians, Lawyers, Clergymen, Bankers, Executives—foremost men and women in every profession, business and trade.

In two hours' restful reading weekly these busy people find that they can learn more, know more, and be able to talk more accurately of what the world is thinking and doing than they could by any other available means.

Just now the DIGEST is giving the most reliable, interesting and complete news-report of the great war anywhere obtainable. It reproduces Maps, Pictures, Documents, Speeches, Editorials—everything of real value that appears in the press of Europe and America.

Politics, Business, Invention, Mechanics, Literature, Science, Current Events of importance everywhere, all subjects that vitally affect mankind, are treated just as broadly and intelligently as is the war news.

COUNCIL WILL MEET TO CORRECT ERROR

Special Session Is Called to
Put Apportionment Sheet
in Legal Form.

Discovery on Friday of a shortage of \$21,183.50 in the October apportionment sheet, which was reported in both branches of the general council at a special meeting on Thursday, caused Mayor Woodward to issue a call for another special meeting to be held at 11 o'clock on Saturday to correct the error.

The shortage was caused by the failure of council to adopt an ordinance introduced by Councilman Jesse R. Lee, chairman of the sewer committee, for repealing ordinance authorizing the construction of sewers in various wards of the city to the amount of \$21,183.50.

In making up the finance sheet for October, the finance committee decided to include as revenue, \$21,183.50, which was set aside as a fund for building sewers passed up during the year. Mayor Woodward and Chairman Lee told the committee that it would be impossible for the city to build the sewers and collect the money this year, and, guided by that information the committee decided to use the sewer money to make the finance sheet balance.

Thursday afternoon when council met in special session, Councilman Lee offered a resolution authorizing council to repeal all sewer ordinances on which work has not been started. This was done in order that the money could be placed in the October apportionment sheet. The resolution was adopted and the action was taken, even after the sheet was adopted by council.

Immediately following the approval of the sheet in council, the aldermanic board met and also approved the sheet. Councilman Claud Mason, of the Tenth ward, called on Mayor Woodward Friday morning and they discussed an item of \$125 which was passed up early in the year to construct a sewer in Dill avenue in the Tenth ward. Mayor Woodward called Councilman Mason's attention to the technical error caused by council's failure to repeal the sewer ordinance first and then adopt the finance sheet, and it is understood that the mayor then issued the call for the special meeting of the council.

Mayor Woodward stated Friday that it would be impossible for him to approve the sheet in its present condition. He said that it is not his intention to veto the sheet, and explained that his action in calling council to meet again was inspired by a desire to put the sheet in legal shape. "There is no danger to the school apportionment," said Mayor Woodward, Friday morning, "and error which must be corrected is a technical one, and in no wise does it affect any but the sewer fund."

VISITORS TO PREACH AT ST. PAUL'S CHURCH

On Sunday, both at the morning and evening services, the pulpit at St. Paul's Methodist Episcopal church, south will be filled by visiting preachers attending the convention of the disciples of Christ. At 11 o'clock, Rev. Allen Wilson, of Valdosta, Ga., will preach. Mr. Wilson is pastor of the First Christian church of that city, and is a preacher of great force and power. At 7:30 o'clock the pulpit will be filled by Dr. S. M. Mason, of Wales, who is an evangelist of great note—one of the greatest and most successful of his church and of the country. All are cordially invited to hear these visiting brethren.

A Full-Page, Full-Color Map of Europe's War Zone Will Appear in Sunday's Constitution

No clearer grasp of the epoch-making struggle now going on in Europe can be gained than by tracing the movements of the warring armies on the **CLEAR-CUT AND COMPREHENSIVE MAP** of the present war zone which will appear in The Constitution Sunday. Flags of the principal countries engaged border the map and may be cut out and pinned in the proper places, showing at a glance the positions of the far-flung battle lines.

The Constitution thus enables readers to interpret the press dispatches so that they will have definite and significant meaning. The capture of a city or the crossing of a river is no longer a colorless event, but, by the shifting of the battle front, becomes full of strategic value.

The Constitution will present **AS USUAL** the most complete, the most accurate account of the unparalleled events in Europe, which seem to be rapidly approaching a crisis. The news of The Constitution is news that can be depended upon.

The Sorosis Room

Our SOROSIS ROOM is the result of reciprocal suggestion. At first, the thought of creating it did not exist in any individual mind. Without straining the metaphor, we might say that it originally was the contents of the collective social mind. The idea was refracted. The zeal of the public simply spread its desire.

¶ As local taste in DRESS rose higher, more and more Atlanta women depended upon Broadway and Fifth Avenue shops for their Shoes. Thus large sums of money, earned here, enriched the retailers of New York. Their patronage from this city grew so great and profitable that they sent their representatives here with portable Shoe stores.

¶ It seemed that the upward development of Shoe wants could not be supplied at home. If this be not true, why did foreign dealers enjoy such a thriving business in our community? We are stating well-known facts—not appraising 'round-town stores.

¶ Streams of suggestions began to flow in to us. At last, the demand became imperious. The response to that demand is found in the SOROSIS ROOM.

¶ Today, no Atlanta woman can find any artistic or economic justification for buying her Shoes or her children's Shoes out of Atlanta.

¶ The SOROSIS SHOES we show are the Shoes that control the fashions in New York, Philadelphia, Boston—in Paris, London, Vienna, Berlin, Frankfort, St. Petersburg, Rome, Naples and a hundred other centers of cultured taste.

¶ In Paris, the feminine world turns to SOROSIS for exquisite Footwear, just as it turns to Paquin, Doucet and Callot for gowns, or to Laferviere and Blossier for hats, or Guerlain and Houbigant for perfume.

¶ SOROSIS variety ranges from delicate, elegant Evening Slippers—gems of art—to hardy Golf Shoes. Don't let the season's novelties absorb ALL your interest. They are simply the glittering spray cast up by the high-rolling wave of fashion.

¶ STAPLE SOROSIS SHOES, replete with facile strength, striking style, incomparable comfort—\$7.00, \$6.00, \$5.00, \$4.00 and \$3.50 masterpieces—are your and our dependence in the main.

¶ The striving, contriving fancies and vagaries of our designers create beautiful and brilliant effects—extreme, audacious models that appeal to the artistic imagination of women who are devoted to the rare, the exotic.

¶ But this class of SOROSIS SHOES is transient, impermanent, evasive. Their spell is brief—like a sensitive flower whose dying, fading beauty still has the power to charm our sense of grace and fragrance.

¶ SOROSIS novelties are without serious rivalry. They are the apotheosis of artistic Footwear. But the others—the splendid, serviceable types are the real pride of the SOROSIS organization.

¶ SOROSIS SHOES are based on anatomical precision.

¶ Look at one of MICHEL ANGELO'S STATUES—the languid pose and supple rhythm of the figure, flowing down a sinuous line of beauty, through the slightly swelling flanks, along the finely moulded thighs to the loveliest feet emerging from peerless stone.

¶ Had the gifted sculptor worked with leather instead of marble he would have made Shoes like SOROSIS.

¶ Greek perfection as to outline marks every pair. They interpret an ideal as classic as any that ever inspired the master of the mallet and chisel.

¶ SOROSIS SHOES for children are trim, neat, attractive. They are authentic in style, thorough in construction, always reliable. Art combined with utility. Their gloss hides no flaw. Tension of every thread tested—pronounced goodness that grows on you.

¶ We know these Shoes.

¶ We know them inside—outside.

¶ No need for you to know them as we do.

¶ You haven't the time to acquire the information.

¶ Our knowledge is your guarantee.

Sorosis Service united the practical with the ideal and out of the union a blend is derived that appeals to all.

PERSONAL:

If you differ with us in regard to SOROSIS SHOES, probably you are wrong, and not the Shoes. How are you to learn the excellence and elegance of SOROSIS SHOES? Chiefly, of course, by examining them and honestly trying to understand them. This process will be materially helped by the frame of mind which says:

"I know on the highest authority that SOROSIS SHOES are fine, that they are capable of giving me service and comfort. Hence, I am determined to find pleasure in them."

Let us place SOROSIS SHOES before the bar of your individual judgment. We believe your verdict will confirm and vindicate all our claims.

The greatest maker of Shoes is the one whose vision has been the widest, and whose feelings have been the most intense.

Your own fragment of insight is accidental and casual. His life is one long ecstasy of denying that Shoes are dull things.

¶ SOROSIS SHOES are certificates of correct culture and comfort—as exemplified by dress.

It is not enough that the maker sees and knows their merit. Others must see and know. YOUR sense of beauty and thrift must be made to quicken and focus on SOROSIS SHOES.

You should begin by making up your mind to read our advertising.

SOROSIS SERVICE

Is the acme of sound business principles applied to progressive and altruistic manufacturing and retailing processes.

SOROSIS SERVICE

Originated in the United States and has revolutionized the standard of shoe retailing throughout the entire civilized world.

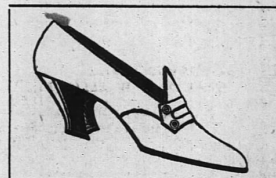

SOROSIS SERVICE

Organized for the comfort and economy of women and children who have a pronounced shoe consciousness.

SOROSIS SERVICE

Takes full measure of the footwear needs of women and children—and provides them bountifully and accurately.

SOROSIS SERVICE

Feminine instinct and intuition are quick to SENSE its varied advantages, that ramify from FASHION to ECONOMICS.

How an Ancient English Prejudice Was Shattered by SOROSIS SHOES

AN American business man, visiting London, was the dinner guest of a friend at the Charlton Club. The conversation finally swerved to a discussion of several well-known American products that have achieved immense popularity throughout England. The pronounced vogue of SOROSIS SHOES in London and other English cities was the subject of great emphasis. The host's explanation was interesting; he said:

"Practically all classes of the English people were educated to bear a decisive prejudice against ready-to-wear things.

"The antipathy in this direction was particularly strong against Shoes.

"Custom-made Shoes were indigenous to British taste and preference. People in moderate circumstances had Shoes made to their individual measurements, because it was popular to disdain ready-made Shoes. They scorned them with the intensity engendered by traditions and could perceive no beauty, nor conceive of there being any comfort in the ready-made.

"This prejudice was not a mere whim or affectation.

"It was an instinctive and inherited habit of thought handed down from generation to generation.

"No effort of English manufacturers could subordinate the feeling. It was ingrain and innate and endured until the American manufacturers established stores in London and other English centers for the sale of Sorosis Shoes.

"At first these stores were ignored. The English were suspicious of American Shoes and looked upon them askance.

"Ladies and gentlemen unwillingly and waveringly tried them on in secret. They didn't wish to be detected experimenting with American ready-made Shoes.

"However, it did not take long for Sorosis Shoes to prove their superiority, and when the crust of the hardened prejudice began to crumble—it quickly disappeared entirely.

"Today our most fashionable ladies and gentlemen are enthusiastic advocates of Sorosis Shoes and custom Shoe-makers are becoming extinct."

Held Parade.

Philadelphia, October 9.—Playing with the sensational speed that has made their club from last place to pennant winners in the National league, the Boston Braves crushed the Philadelphia Athletics here today in the first game of the world's series, 7 to 1. Although the newly constituted baseball machine of the Athletics was well equipped on paper, it never left the track, and under the guiding hand of Pitcher Rudolph, clanked through the victory over the two-to-one American league favorite in a well won, no lucky breaks or baseball flukes were in the play, but by sharp, well and timely hitting the Braves piled up an offensive lead which, coupled with Rudolph's sterling bow work and the general defense of his teammates, left no opening for the Philadelphia club's attack.

The Braves were first to score, putting two runs across in the second inning. Whitteled walked and scored on a double by Moran, who was hit home on Maranville's drive to left center. The Athletics came back with a run in their half of the same inning when Melvin was passed and scored on a single by Moran, who was hit home by his fingers for three bases.

SIXTY FIVE BATTLES

IN THE FIFTH GOWDY TRIPLED, TO CENTER AND CAME HOME, ON MARANVILLE'S SHORT HIT OVER MCINNIS' HEAD. HE MADE THE GAME IN THE NEXT INNING, SCORING THREE RUNS ON EVER'S SINGLE, CONCINCING HIS FINGERS FOR THREE BASES.

Rudolph's Slow Ball Puzzles Athletics

ATHLETICS WERE HELPLESS
BEFORE HIS FINE HURLING

The grand little right-hander who twirled a wonderful game in the opening against the hard-hitting Athletics, holding them to five hits and a shutout, was the Boston Braves' pitcher, Dick Rudolph. But a bobbie by Moran in right field, he would have had a shut-out game.

That slow ball of his and his sweeping curve had the Mackmen swinging desperately. He'll probably have a shut-out game.

PLAY BY PLAY ACCOUNT

SHOWS BRAVES' STRENGTH

Moran, of Boston, the first man up, was hit by a slow ball.

The second pitch was a foul strike. The third, a ball.

Superb Hurling of Little Dick Rudolph,
Gowdy's Bludgeon Features, Says Howe;
Victory Gives Braves Fighting Spirit

By IRWIN M. HOWE,
(Official Washington American Editor.)

Philadelphia, Pa., October 9.—(Special.)—Followers of the Boston Braves have two candidates for annihilation tonight. The names of the proposed candidates are Rudolph and Moran.

Rudolph, a right-hander, is a really superb hurler of the former and the mighty bludgeon of the latter is the victor of the Braves in the first game of the series. When a pitcher hits the Mack wracking crew to a measly five hits and two passes and does some tall twirling.

The Braves had something on every pitch. The hurler of the Athletics thought he was doing some tall twirling.

His well-delivered slow ball was the most potent factor in his success. He did not utter a shrill most of the time and the American league winners did little, attention to it after the second inning.

slow Ball Tosses.

spendid slow delivery and the batter would walk to the bench.

Nearly all of his strikeouts were due to his perfect control of the ball and the ease with which he mixed it with the curve. When he was not putting the ball below they were hitting easy chances to the infield.

Blank Gowdy was as powerful on the offensive side of the play as Rudolph was on the defensive.

He started the fifth with a furious triple and scored immediately afterwards on Maranville's single. This was really the first time in the series that the Athletics had scored.

He came up again in the sixth there was a double by Moran on the first and a single by Gowdy on the second.

More runs had just been made off Rudolph and he was on the way to the show.

Whitteled had just come on and signaled his entry into the game by a double on the first and a single on the second.

SPORTS CONTINUED

How Will Winning Ump Game Affect Result of the Series? Statistics Give Braves Edge

By Otto F. Wood.

Philadelphia, October 9.—(Special.)—Will the success of the Braves in the first game prove a factor in the final decision of the series? "Winning the opening game of such a short series as the one for the championship of the world is naturally an advantage. It counts for as much as 'getting the jump' on an opponent in any other line of endeavor."

There is another material benefit in landing the first game besides that of taking immediate possession of the lead. It is that of mental suggestion. The victory inspires the winning players and lessens the confidence of the losing team, thus making their playing smoother and less conscious. A team that can forget to a reasonable degree that it is chased, will find it is in arrears and that every play is all important.

A glance at the dope of the modern world's series games attests the truth of the foregoing. In the ten series played since 1903, the team that won the opening game has won the series eight times. Only twice did the winner in the opening game fail to finish ahead in the end. Pittsburgh won the opening game in 1903, but lost the series to Boston, five games to three. In 1911, the Cubs won the first game from the Athletics, but were beaten in the next four games, the two games the Cubs battled to a 15-inning 3-5 tie in the first game in 1907, but the Cubs won the second and first decisive game, and eventually the series.

Other glances at the dope reveal the fact that the background of the first game is not such an important factor as one might be led to believe. Undoubtedly there is not a manager who would not prefer to play the opening game, and lessens the confidence of the winning team. However, in the ten series, the winning and losing teams have split even in the matter of winning the initial struggle.

The teams that have drawn the home ground in the opening of the series have won six of the ten series. The only team that has won the series at home and won the series is Boston, 1918; Chicago, 1905; St. Louis, 1904; New York, 1912; New York, 1913; New York, 1914.

Complete dope, tabulated, follows:

Year	Opening Game	Winner of Series	Y.	L.	Tie
1903	Philadelphia, Giants	Giants	4	3	0
1904	St. Louis, Cardinals	Cardinals	4	3	0
1905	Chicago, Cubs	Cubs	4	3	0
1906	Pittsburgh, Pirates	Pirates	4	3	0
1907	Pittsburgh, Pirates	Pirates	4	3	0
1908	Pittsburgh, Pirates	Pirates	4	3	0
1909	Pittsburgh, Pirates	Pirates	4	3	0
1910	Pittsburgh, Pirates	Pirates	4	3	0
1911	Pittsburgh, Pirates	Pirates	4	3	0
1912	New York, Red Sox	Red Sox	4	3	0
1913	New York, Athletics	Athletics	4	3	0
1914	New York, Athletics	Athletics	4	3	0

*Second game was also played in Chicago because of tie and Chicago won.

Braves Rule 10 to 9 Favorites in Beantown

Commodores Face Wolverine Team

Boston, October 9.—Business was partly suspended here today while thousands followed the bulletin in the streets and theaters or made use of telephones to learn of the fortunes of the Braves in the opening game of the world's series in Philadelphia.

The Braves in the opening game were blocked at times and there were some who thought the Braves were in a bad way. The Braves added three runs in the eighth and won the game 10 to 9.

After that the street throng thinned and the Braves were in a bad way. The Braves added three runs in the eighth and won the game 10 to 9.

After that the street throng thinned and the Braves were in a bad way. The Braves added three runs in the eighth and won the game 10 to 9.

Georgia-North Carolina Battle on Grant Field

Commodores Face Wolverine Team

Georgia and Tech have buried the hatchet. Everything is again serene. Athletics at Tech, rendered the use of Grant field to the athletic authorities of the University of Georgia for the North Carolina game a week from today.

One More Fan, One More Dollar At First Philly Game Last Year

By Dick Jemison.

The announced official attendance and receipts of Friday's game in Philadelphia caused a little stir in connection with the world's series games. The attendance was 20,482, the receipts \$14,400.

Both claim to have been the largest crowd in the history of the Polo Grounds and the second game in Philadelphia.

JEMISON DETECTS CLEMSON TIGERS IN PHILADELPHIA CROWD

The largest crowd that has ever attended a game at Dick Jemison's baseball parlors on the Viaduct, heard him detect the opening of the world's series between the Braves and the Athletics Friday.

Every seat in the big hall was taken, and the crowd was so large that the game was not started until 1 o'clock. The game was not started until 1 o'clock. The game was not started until 1 o'clock.

Indianapolis Federals Challenges the Winner Of the World's Series

Indianapolis, Ind., October 9.—The Indianapolis Federal league club winner of 1914 Federal pennant, today accepted a challenge to the winner of the Boston Braves-Philadelphia Athletics series for a contest to decide the world's championship. The challenge, issued by the club of Secretary Ross, reads in part:

"We, the undersigned, challenge the winner of the world's series to accept this challenge, and we claim either to win the world's championship or to the name of the sport."

Fan Praises Sporting Department for Live News During Season

The sporting editor is in receipt of the following letter from a fan of the Boston Braves:

"I have been a fan of the Boston Braves for several years. I have been a fan of the Boston Braves for several years. I have been a fan of the Boston Braves for several years."

ATTENDANCE AND RECEIPTS

Philadelphia, October 9.—The Social figures for attendance and gate receipts for the first game of the world's series, between the Boston Braves and the Philadelphia Athletics, were as follows:

Attendance, 20,482.
Receipts, \$14,400.
Players, \$2,800.
Each club's share, \$1,400.

No Gloves in Atlanta
Like These French
Lambkins

TRUE to our promise not to raise prices as long as present stocks remain, we still offer this glove at \$1—though worth a full \$1.25 in today's market.

Made of best French lambkin; perfectly fashioned and finished. Black, white and colors; black with white stitching; white with black.

Every Desired Style
25c to \$2
A New Shipment of
Trefousse Gloves
as well as many others.

The Same Good Grades
at Last Year's Prices
(Gloves—Main Floor, Left)

18 New Styles
in Blouses, at \$1
FRESH from their boxes come new beauties in blouses. The most striking are white crepes with raised ruffles, in colors and pique collars and cuffs. Other styles include:

—Crepes, organdies and lingerie; many charmingly combined with flanne collar and cuffs; pique vestees, organdies from neck; high necks, rolling or sailor collars; long sleeves. Choice \$1.
(Ready-to-Wear—Second Floor.)

Harvard Mills Union Suits \$1

PERFECTLY shaped garments that will stay in shape through the severest tubbing. Not stretched to fit, but tailored to fit.

Made of finely spun cotton in light, medium or heavy weight. High or low neck; knee and length; full sleeves, half sleeves or sleeveless. All sizes for women and misses.

(Main Floor, Right).

H. & W. Corset Waists for the Growing Girls Especially for School and College

SCIENTIFICALLY adapted for wear in the growing years, when the woman's figure is developed from the lines of the girl, a critical period when careful corseting is necessary.

New designs upon the "lissome" "nature" lines demanded by the newest fashions, insuring erectness of pose, grace of outline, classic simplicity.

Because H. & W. Corsets genuinely support the body, instead of compressing it, they are also much used by delicate women and invalids. Prices 50c to \$3.

(Second Floor.)

New Shades in Silk Hose

Regardless of the color of milady's new shoes or suit we can match it from

40 shades in
boot silks, at 50c
62 shades in
silk hose, at \$1

Special at \$1
A BLACK silk stocking unmatchable under the lines of grain silk, hile silk, silk top with lile lining. When you see it, you will be glad to buy six months ahead.

Infants' Sox 15c
White silk hose from Germany. All sizes 4 to 9.
(Main Floor, Right)

NEGRO THEATRE SAFE HERE

Hall County Deputies Dash
From North Carolina
Border to Atlanta to Save Prisoner
From Crows.

Gainesville, Ga., October 8.—(Special.)—Deputy Sheriff Burdette left Gainesville for Atlanta this morning with a negro named Leonard Law, where he will be placed in the Fulton county jail for safe keeping until time for trial.

About a month ago the negro, it is said, attempted an assault upon a white girl 12 years old in upper Hall county, where the charge against the negro was made. He then told the little girl that he would kill her mother, who would act her to death, and the little girl did not tell it. Later the negro presented the crime charged with law and told the tale. The parents of the little girl then asked for the fair and she admitted it.

When the citizens of that place heard of the charge against the negro, they wanted to serve him a lynch law, but the sheriff, who is a white man, would not allow it. He said he would not allow a lynch law to be carried out in his county. He said he would not allow a lynch law to be carried out in his county. He said he would not allow a lynch law to be carried out in his county.

"DOC" CARR INDICTED ON PERJURY CHARGE

Athens, Ga., October 9.—(Special.)—"Doc" Carr, head of years of the big Mayfield, Ga. falling, which firm was the highest in fifty years in this part of the state and from which fall has much litigation has developed in the state and from which fall has much litigation has developed in the state and from which fall has much litigation has developed in the state.

HARWOOD RED MAN

50,000 SADDLETRES
ARE ORDERED FOR WAR

Edward Flor, of Demorest, Ga., manufacturer of all kinds of hard-wood saddletrees, has received a war order for 50,000 saddletrees, and is making additional war orders for saddletrees every day.

Mr. Flor, in a letter to The Constitution, stated that he was led to announce his big order when he saw the announcement of a similar order for 185,000 saddletrees received by a Jefferson City, Mo., firm.

MRS. M. SUMMERS, Box N, SOUTH BEND, IND.

Most Modern Dental Offices in South Opened in Atlanta

With the light subdued and all surroundings of a restful character, the patient reclines in restful ease and comfort in a lounge-like operating chair.

Nowhere is there to be seen any suggestion of the terrors of the ordinary dental operation. Psychology, as well as an eye for beauty and elegance, has been employed in the construction of the place. Timid find all apprehension relieved; the frightened lose all fear.

For years it has been the ambition of Dr. E. G. Griffin to give Atlanta the south's most modern and complete dental offices. That ambition has been achieved with the opening of the new office at 111 South Main street.

With the knowledge of an expert who knows all there is to be known about his craft, gained in 24 years of practice here, Dr. Griffin has sought in his new office to do all that is modern and comfortable—and has succeeded. He has eliminated the horrors of the dental chair, replacing them with beauty, ease and comfort. It used to be that a patient, when he went to a dentist, had to go through a mental distraction still in addition to the physical one.

Light is plentiful. The operating rooms form a half circle around the reception parlor. There are eight of them, each elaborately appointed with the latest in dental appliances. Each has an eastern or southern atmosphere, and is as comfortable as a bed.

Plague at Saloniki.

Genoa, Italy, October 9.—(Via Paris.) Several cases of plague have been reported at Saloniki and as a result a quarantine has been placed on the port for that port suspended their departure.

By the Wondrous Power of Magnetism
The Sick Room of the
Brought Health to Atlanta.

His Success Has Created No End of Discontent
As Many Relieve Over Their
Miserable Conditions to Health.

Nature's Vital Force Gives Life to the
Suffering and Cheats the
Coffin of its Prey.

The past week the citizens of Atlanta have been electrified, dumfounded, bewildered and finally convinced by the wondrous power of magnetism.

On the morning of October 9, the day reports have reached the public press and been the cause of discussion upon the streets relative to the strange and subtle power of Vital Magnetism.

It was a remarkable power, it was a power that had been known to the people and the enforcement of the law.

It was a power that had been known to the people and the enforcement of the law.

It was a power that had been known to the people and the enforcement of the law.
